

BigFuture® School

Helping your teen feel confident and in control of their future planning just got easier.

BigFuture® School is only accessible to test takers 13 years or older who take a PSAT-related assessment or the SAT® during school.

This mobile app is available free for students. Your teen will have college and career guidance at their fingertips.

SUPPORT YOUR TEEN'S FUTURE PLANNING

BigFuture School offers the perks and convenience of an app and the trusted expertise of College Board. Teens can access reliable, customized guidance on college and career planning, all in one place.

ENCOURAGE YOUR TEEN TO BE ACTIVE IN THE APP

There's always new guidance and tools being added. Help your teen take the guesswork out of future planning! By updating preferences and taking the career quiz, teens can personalize their exploration.

PUT YOUR TEEN IN THE DRIVER'S SEAT

Your teen can opt in to Connections™ to discover nonprofit colleges, scholarship providers, and government agencies administering education programs.

No personally identifiable information is shared in the app. Your teen decides if and when to connect with institutions directly.

Connections isn't available to PSAT™ 8/9 test takers. A school, district, or state may choose not to provide access.

Students can always get their score report from their school, who receives a PDF report for all of their students.

How Teens Get Access

1 PROVIDE A MOBILE NUMBER DURING EXAM SETUP

During exam setup, teens can provide a mobile number to securely access the app.

2 DOWNLOAD THE APP AND LOG IN

Teens will receive a text with the link to download the app after the testing day. They'll get a second text when scores are ready. We won't use their mobile number for any other reason.

3 CONSIDER CONNECTIONS

When available, teens can opt in to Connections during exam setup or after they download the app.
