

# What to Know Before the Student Readiness Check

You can access **BigFuture® School and Connections™** (when available) to help you do more with your score from PSAT-related assessments and SAT® School Day.

## BIGFUTURE SCHOOL MOBILE APP

### MOBILE-FIRST EXPERIENCE

Start with college and career planning right on your phone the moment you get your scores.

### EASY SCORE ACCESS

Access scores and career insights as soon as they're available. College Board will notify you as soon as scores are ready.

### CONNECTING YOUR SKILLS TO FUTURE OPTIONS

You can connect academic skills demonstrated on the SAT® Suite to career options, and update preferences to drive your college search.

## IMPORTANT! How to Access the App

During exam setup, you have the option to **provide your mobile number** to access BigFuture School. You'll receive a link to download the app later that day. You can also **opt in to Connections** (when available).

The mobile number is used to authenticate your information in the app and isn't used for any other reason.

## CONNECTIONS

### STUDENT-DRIVEN RECRUITMENT

Connections is the primary way for in-school test takers to discover nonprofit colleges, scholarship providers, and government programs looking for students like them.

### PRIVACY MATTERS MOST

You decide if and when you want to connect with interested institutions.

*\*Not currently available for PSAT 8/9. A state, district, or school can choose not to offer Connections.*
